A 空调翅片模具
air-conditioner fin die

此类模具适用于家用空调,中央空调,除湿机等。

模具维修使用方便,零件互换性极好。

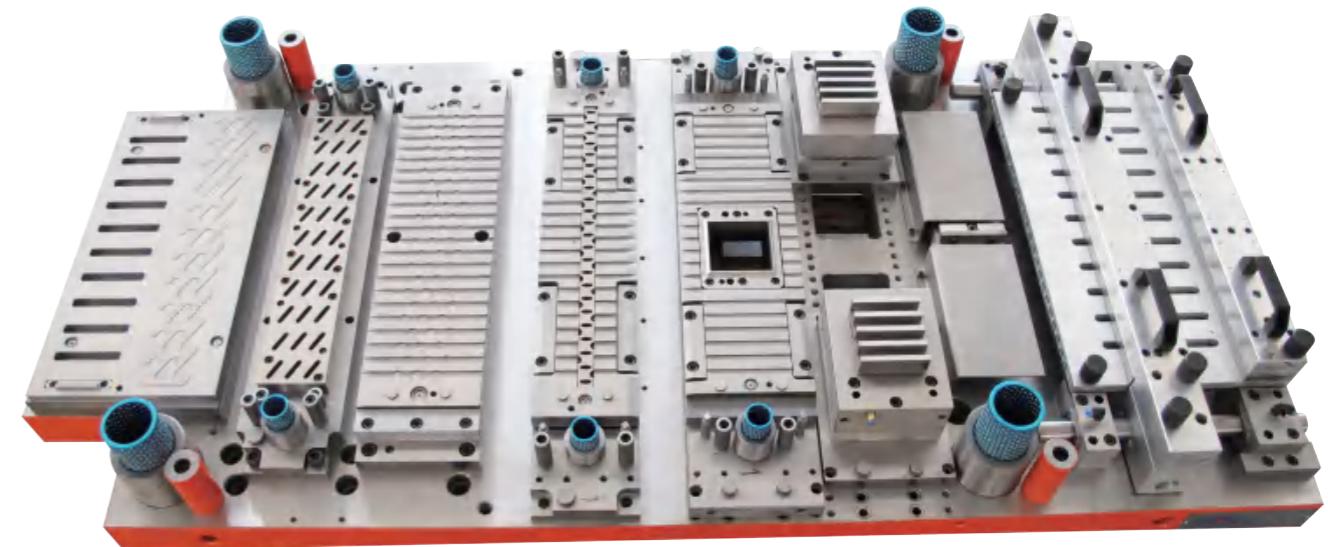

冲压速度可达300—400次/分。

This kind of die is suitable for the home use air conditioning, central air conditioning, humidity reducing set and so on.

Fin die manipulation is very convenient, excellent interchangeability of components.

Stroke time reaches to 300-400 times per minute.

R 冰箱翅片模具
refrigerator fin die

此类模具适用于风冷无霜冰箱。

模具维修使用方便,零件互换性极好。

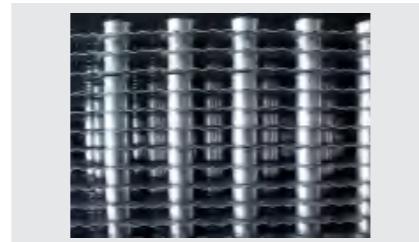

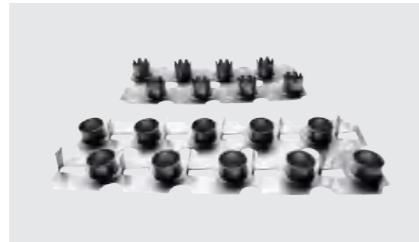

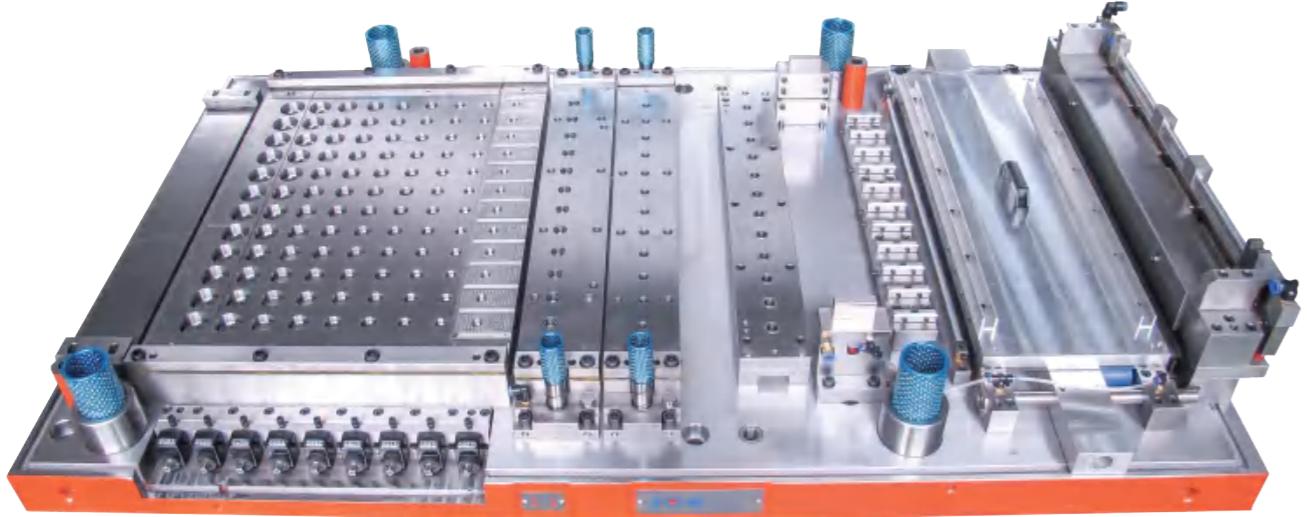

冲压速度可达250—300次/分。

This kind of die is suitable for the forced-air no frost cooling refrigerator.

Fin die manipulation is very convenient, excellent interchangeability of components.

Stroke time reach to 250-300 times per minute.

H 高翻边翅片模具 High collar fin die

此类模具适用于冷藏,冷冻或一些特殊行业。

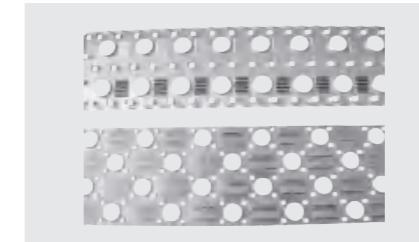

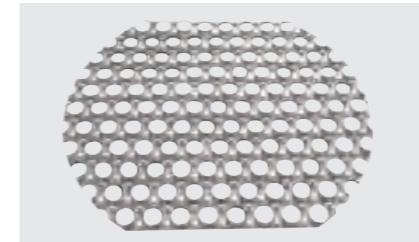

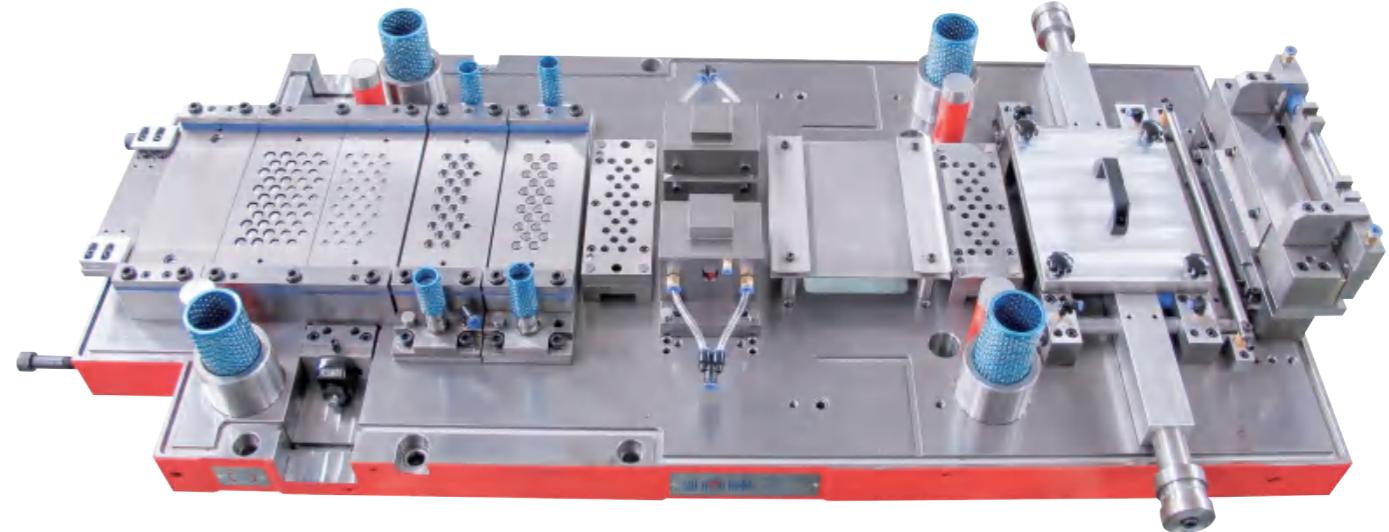

模具维修使用方便,零件互换性极好。

冲压速度随翻边高度的升高及冲床行程增加而降低,冲速一般可达150—250次/分。

This kind of die is suitable for the refrigeration, the freezing or some special professions.

Fin die manipulation is very convenient, excellent interchangeability of components. Stroke time reach to 150-250 times per minute.

S 特殊用途翅片模具 Special purpose fin die

此类模具广泛应用于工业,农业,船舶,内燃机,汽车等行业。

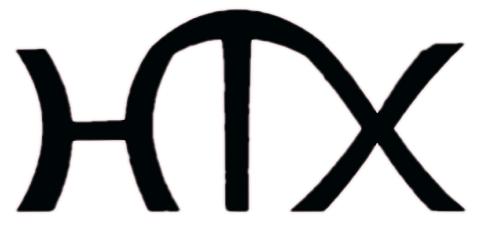

模具根据不同的行业的特殊要求进行设计,如椭圆翅片,斜切翅片,冲制铜翅片或钢翅片等。

模具维修使用方便,零件互换性极好。

This kind of die widely applies in the industry, the agriculture, the ships, the internal combustion engine, automobile and so on.

The die basis different profession's special request carries on the design, like the ellipse fins, beveling fins, copper fins, steel fins and so on.

Fin die manipulation is very convenient, excellent interchangeability of components.

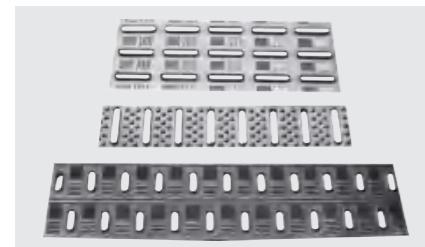

O 开式翅片生产线

pen type fin press line

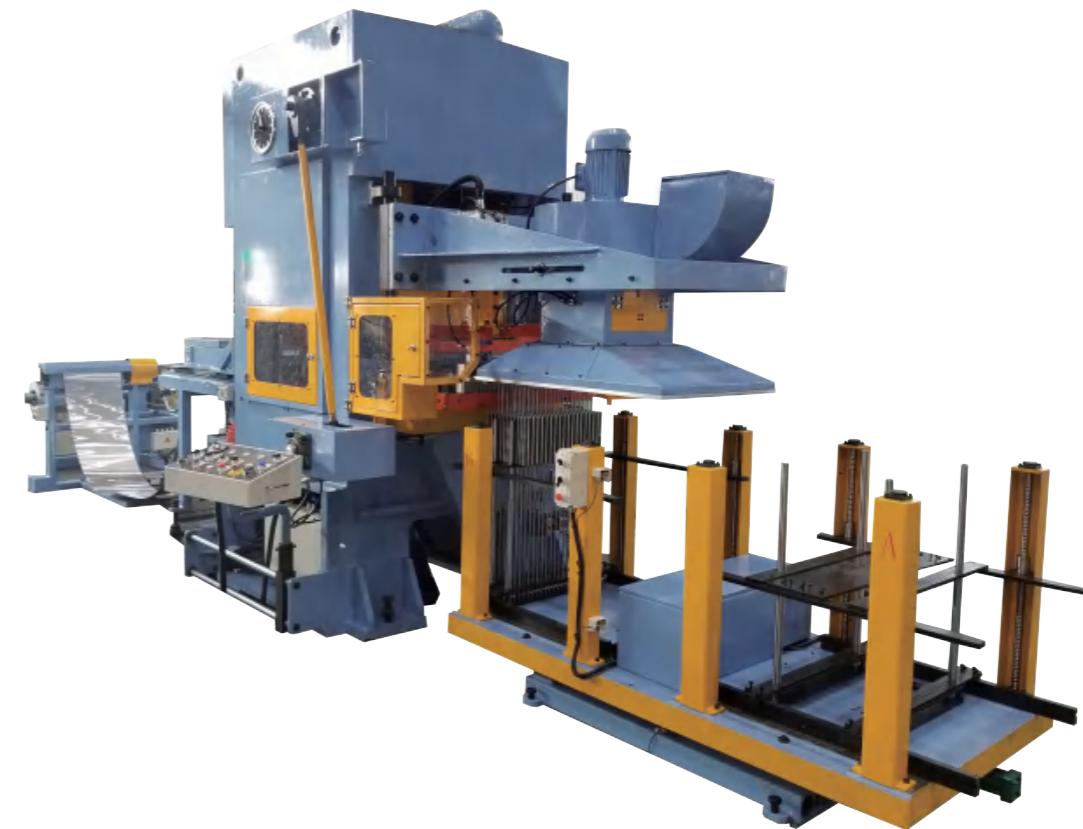

开式翅片生产线由开卷机，过油箱，翅片冲床，真空吸盘和集料装置组成。适合小批量多品种生产，是最经济的选择。适用于中小模具，如7mm模具8-24列，9.52模具6-16列，12.7模具6-12列，15.88模具6-12列。

Open type fin press line include fin stock uncoiler, lubrication tank, main press,suction unit and fin stacker. It is an economical choice for small batch and many varieties production. It is suitable for small middle fin die,like 8-24 rows 7mm fin die,6-16 rows 3/8 fin die,6-12 rows 1/2 fin die,6-12 rows 5/8 fin die.

C 闭式翅片生产线

close type fin press line

闭式翅片生产线由开卷机，过油箱，翅片冲床，真空吸盘和集料装置组成。适用于大批量规模化生产，如7mm模具24-72列，9.52模具18-48列，12.7模具12-24列，15.88模具12-24列。

Close type fin press line include fin stock uncoiler, lubrication tank, main press,suction unit and fin stacker. It is suitable for mass production on a large scale, like 24-72 rows 7mm fin die,18-48 rows 3/8 fin die,12-24 rows 1/2 fin die,12-24 rows 5/8 fin die.
